7.3 Give two Best Practices of the institution (*please see the format in the NAAC Self-study Manuals*)

- College calendar is strictly followed and as per UGC norms Teaching is usually done more than 180 days.
- Three compulsory certificate course (Environmental Awareness, Computer Awareness and Personality Development Programmes) for all the students.

**Provide the details in annexure (annexure need to be numbered as i, ii, iii)*

7.4 Contribution to environmental awareness / protection

- Through environmental awareness certificate programme.
- Solar panel installed for Campus lighting.
- Waste management awareness

7.5 Whether environmental audit was conducted? Yes No ✓

7.6 Any other relevant information the institution wishes to add. (e.g. SWOT Analysis)

- Strength of Ewing Christian College lies in its huge campus, it's forward looking Board of Governors, its hundred and ten year history of struggle and survival, laced with string of successes, its autonomy completing three cycles of extension, its CPE status extended into second phase, its unique status as the only centrally funded constituent college in the country enjoying autonomous status, its committed faculty, its alumni, spread all over the country and abroad, and its academic linkages with overseas institutions. Within the given constraints, the implementation of autonomy in the College, and its achievements thereof, might be treated as a success story. Conversion of the campus into an e-learning hub is another strong point of the College.
- Weakness of the College is its undergraduate status, its uninitiated human resource, due to lack of information about the reforms taking place in the field of higher education, and its shrunk catchments and the resultant poor quality of intake. Constrained to function as an associated college of Allahabad University, with no scope for experimentation or innovation for more than forty years, the faculty has lost drive and initiative, and has become complacent to undertake rapid strides in the field of academic innovations, restricting its role to teaching the students with full commitment, where it excels.
- Higher education is facing twin threats of becoming globally competitive, on one hand and to become self-financed, on the other. This requires sharper acumen on the part of the educational administrators than that required by the CEOs of business organizations. The College wants to brace itself up to convert these Challenges into Opportunities. Another area for growth being explored is the area of research, extension and consultancy.

8. Plans of institution for next year

- Implementation of Semester System
- Revision of curricula as per semester system
- Recruitment of teaching and non-teaching staff
- To start interdepartmental research activity
- Establishment of wormy compost unit
- Jumna terrace beautification
- To launch more career oriented courses and to try to be identified as community college by UGC
